MUHAMMAD SULEMAN

FRONT–END DEVELOPER

PROFILE

A dedicated front-end developer with expertise in building responsive and user-friendly web applications using React, Tailwind CSS, and JavaScript. Experienced in developing dynamic UIs and integrating APIs to deliver high-quality user experiences. Proven ability to collaborate within teams, communicate effectively, and apply technical skills in fast-paced environments. Continuously learning new technologies and committed to delivering clean, efficient code while meeting project requirements and deadlines.

WORK EXPERIENCE

Front-End Developer
Self-Employed   **2022 - PRESENT**

- Built over 50 web projects, focusing on responsive and interactive designs using HTML, CSS, JavaScript, and React.
- Developed key applications, including a weather app, expense tracker, and Spotify clone, to deepen knowledge in UI design and API integration.
- Enhanced skills in state management with React, creating real-time dashboards, dynamic widgets, and optimized UI elements.
- Specialized in API integration, optimizing front-end performance, and collaborating in team-based projects with technologies like Redux Toolkit and Firebase.

Front-End Development Instructor   **2024 - PRESENT**
Aptech Institute

- Led classes on HTML, CSS, JavaScript, React, and TypeScript, adapting lessons for both beginners and advanced students.
- Enhanced learning experiences with a clear teaching style focused on practical applications and interactive sessions.
- Provided one-on-one mentorship to foster a strong foundation in front-end development skills, preparing students for industry demands.

PROJECTS

- **LifeLink - eAmbulance Service Platform**
- **Real-Time Dashboard with Dynamic Widgets**
- **React CRUD App with REST API & Axios**
